

AGENDA

Lewis and Clark County 2020 Asphalt-Pre Bid Meeting

Date: 4/6/2020

Time: 2:00 pm

Location: Phone in Prebid (see instructions in Invitation To Bid)

Conducted By: Jesse Whitford, CET IV, CWI, Construction Project Coordinator

Online Introductions

Scope of Project:

Provide bituminous asphalt pavement meeting requirements of Montana Public Works Standard Specifications Sixth Edition, Section 02510 Asphalt Concrete Pavement (PG 58-28 MPW, Grade C Leveling Course). **See attached test requirements. Discuss test requirements – ask if anyone has questions.**

Completed, approved mix design must be attached with bid. Mix with RAP will be considered, provided all criteria is met. Mix design with millings will not be considered. Reasoning is- millings are susceptible to contain oversize aggregate. Typically RAP is a crushed product, and Millings may not be crushed.

Bidder must be capable of providing a minimum of (4) tons and up to a maximum of 300 tons of asphalt daily, for pickup and transport by Lewis and Clark County. Work week may include Monday through Friday, (7:00 –am to 5:00 pm). A total of up to 5,000 tons of asphalt will be anticipated. Scheduling of work will be from May 1, 2020, and may continue through December 31, 2020, or season shut down if earlier.

In the event that a bidder is not capable of producing required asphalt mix at their production facility, successful bidder will be required to provide asphalt mix of the same specifications from some other location within 10 mile radius from 3402 Cooney.

All or none proposal. - The successful bidder will be the supplier that we will be obligated by contract to purchase asphalt from for the 2020 construction season.

Sealed Bids are due no later than 4:00 pm at City County Building, Room 345, Wednesday, April, 8, 2020. Bids are to be labeled “**Asphalt Bid Enclosed**” Bids will be read aloud Thursday 9, 2020. Due to COVID-19, bids will be required to be delivered or mailed to Lewis and Clark County Public Works Department 3402 Cooney Drive, Helena, MT 59602. Addendum No. 1 has been issued explaining the location for delivery of the Bids.

Asphalt bid price: The price per ton of Type C Asphalt will be the total cost per ton to include any applicable energy charges associated with producing the mix.

Quality Control:

It will be the responsibility of the successful bidder to provide a Type C asphalt mix that is in compliance with MPWSS Specifications. At the discretion of the County, Entity may obtain samples to verify compliance with requirements.

Should the bituminous asphalt be in nonconformance upon delivery, supplier will be notified immediately. If the problem persists, the asphalt will be rejected, with Be rejected with no payment made, and supplier may be required to pay for time and materials,
